Abstract (en)
Driver assistance system for a driver in the vicinity of a cross-roads (10) equipped with traffic lights (20). The system comprises a road communication arrangement (23) that communicates with a traffic lights control unit (21) and a vehicle on-board communication arrangement (31). The communication arrangements are configured to communicate in a wireless manner (2D3) with the at least one traffic light control unit over a short range (23R).
