Abstract (en)

[origin: WO2004105856A1] The invention relates to a device for connecting a tubule (2) to a mixer or a mixer accessory that can be obtained on the market. Said device is provided with a transition piece (3) and a fixing piece (4), the transition piece comprising an insertion part (8) on one end and a receiving part (12) on the other end, and the fixing piece being slipped over the transition piece. One such connecting device enables thin tubules to be used in a reliable and simple manner e.g. in medical technology.
