Abstract (en)

[origin: WO2004107124A2] Systems and methods applicable, for example, to searching for entities reachable via networking, allowing for communications among node users, and performing sharing operations. Additionally, systems and methods applicable, for example, in allowing users to easily employ network-capable nodes for various services. Such systems and methods could for example, be employed in the provision of services such as sharing, messaging, and/or chat.
