Abstract (en)
[origin: EP1634942A1] The invention relates to an acidic disinfecting and cleaning composition which comprises one or more selected quaternary ammonium salts, one or more selected alcohol alkoxylates, one or more alcohols and one or more hydroxycarboxylic acids. By exact selection of the constituents, a composition is provided which can be formulated as concentrate and, as dilute aqueous ready-to-use solution, has a good cleaning performance in combination with good microbicidal activity.
