Abstract (en)
[origin: WO2005000567A2] The invention relates to a fillable object (10) having a flexible outer layer (15) made of plastic. The fillable object is designed in such a manner that, in its filled state of use, embodies a sports trophy such as a cup (10). A gas or a deformable solid filling made of, for example, a foam compound, a foam material or of a foam granular material can be provided as the filling. PVC, in particular, is suited for use as plastic.
