Abstract (en)
[origin: WO2005009315A1] The invention relates to a movable confinement or isolation box (1) comprising a chamber (1C) whose size makes it possible to arrange at least one burn or intoxicated patient and consisting of at least two tightly assembled semi-shells (1A, 1B). Said box is characterised in that at least one (1B) of the semi-shells (1A,1B) is provided with an autonomous technical unit (2) which is arranged in a predetermined area thereof, contains at least one turbine (3) connected to a supply unit (4) and communicates with an outside atmosphere and an atmosphere in the chamber (1C) of the box (1) by means of at least two openings (5A, 5B) connectable thereto. At least one of the openings (5A, 5B) of said technical unit (2) can serve for the air supply to the chamber of the box or for the air removal from the chamber (1C) of the box (1) according to the desired operating mode thereof.
