Abstract (en)

[origin: WO2005002856A1] The invention relates to a method for operating an inking system (01) on a rotary press. Said inking system comprises an inking device (03) for applying the colored printing ink (D, E) to the rollers of the inking system. The inking system (01) can be contacted directly with a printing cylinder (11) via at least one form roller (12, 13) and The printing cylinder (11) can be contacted directly with a blanket cylinder (60). The printing cylinder (11) is removed from the blanket cylinder (60) for the purpose of pre-inking the inking system (01), the rollers of the inking system are rotationally driven and at least the rollers of the inking system are pre-inked by applying colored ink using the inking device.
