Abstract (en)  
The collapsible commercial container is in the form of a lattice basket (1) which in the corner regions has respective one-piece vertical struts (9-12), whereby two diagonally opposite vertical struts (9,12) lying opposite longitudinal side walls (2,3) each support a transverse side wall (4,5) which is pivotable around a vertical axis in such a way that two folding units are formed and which, after an oppositely directed hinging in of the pivotable transverse side walls towards the longitudinal side walls, are collapsed with the base frame (8) into a packed position.
