Abstract (en)
[origin: EP1640284A2] The storage and transportation container (1) has a lid (5a,5b) which has a spring-loaded locking bar (7) which has a hooking protrusion locking in the upper edge of the container and a gripping component (9) lying above the lid. The hooking protrusion and gripping component are installed on a slide plate element (8) constructed in one piece with a locking tongue which consists of a tension spring and a plate-like head piece on the free end of the spring for fixing on the underside of the lid.
