Abstract (en)
[origin: WO2005005453A2] The present invention provides, in one aspect, novel compounds comprising sterols and/or stanols and cholesterol biosynthesis inhibitors, including salts of these compounds and solvates and prodrugs of these compounds and/or salts. In another aspect, the present invention provides compositions comprising at least one sterol and/or stanol ester and at least one cholesterol biosynthesis inhibitor. Also provided are methods of treating or preventing a variety of diseases, conditions and disorders by administering the compounds or compositions provided herein.
