Abstract (en)

[origin: EP1645526A2] The packaging has adhesive label (10) and blister (30) whereby adhesive label has adhesive surface and print surface. Front side (24) and back side (26) of adhesive label are folded along folding line (18) so that the adhesive layer of front side and adhesive layer of back side lie on each other. The front and/or back side has a window in which blister, consisting of cup (32) and edge (34), is inserted. The cup is enforced in the window of the adhesive surface and the edges are fixed between the adhesive surface of front and back side of the adhesive label. Independent claims are also included for the following: (A) Adhesive label; (B) Blister; and (C) Procedure for production of packaging.
