Abstract (en)

The present invention relates to a monofilament yarn for use in an industrial textile, wherein said yarn has a bi-nodal cross section. The present invention further relates to an industrial fabric, preferably a paper making clothing, which comprise at least one monofilament yarn with a bi-nodal cross section. In addition the present invention relates to a method of making an industrial fabric comprising a monofilament yarn with a bi-nodal cross section.
