Abstract (en)

The loud speaker has a wave shaped membrane (12) in front of a closed rear chamber in an oscillation system with at least one high energy permanent magnet, a front plate (16) and a coil arrangement which excites the magnet. The loud speaker also has a plate shaped axially magnetized magnetic element (10). The front plate is arranged in front of the membrane and has slits formed in it.

Abstract (de)

Koaxiallautsprecher mit wellenförmiger Membranfolie vor einer geschlossenen, rückseitigen Kammer in einem Schwingssystem mit mindestens einem energiereichen Dauermagneten, einer Frontplatte und einer den Dauermagneten erregenden Spulenordnung, mit einem plattenförmigen, axial magnetisierten Magnetelement, und Schlitzen (26) in der vorderseitigen, vor der Membranfolie (12) angeordneten Frontplatte.
