Abstract (en)

[origin: WO2005007144A2] Methods for diagnosis of asthma or a susceptibility to asthma based on detection of at-risk haplotypes associated with MAP3K9 are disclosed. Also methods for treatment of asthma or a susceptibility to asthma based on detection of at-risk haplotypes associated with MAP3K9 are disclosed. In particular, pathway targeting for treating individuals who are at-risk of developing asmtha are described. In certain aspects, MLK1 inhibitors are used in treatment methods.
