Abstract (en)
[origin: WO2005012068A1] The invention relates to a driver's cab (1) for a utility vehicle (2), comprising a support structure (3) on which a door (5) that is mounted on a door frame (4) is disposed on each side of the vehicle. The invention is characterized in that the door frame (4) and the door (5) form a preassembled door module (6) at least on one side of the vehicle while the support structure (3) is prepared for mounting the door module (6), the door frame (4) being fixed to the support structure (3) in the assembled state.
