Abstract (en)

[origin: EP1647491A1] The blank has a dispensing tab comprising a deformable part (21) with an end connected to an inner side of a lateral panel. The part (21) has another end to which a sliding part (18) is articulated along a folding line (22) aligned with another folding line (15). Guiding tabs (14) cover the part (18) to guide the sliding of the part (18) along the line (15) between a sealing position and a dispensing position. An independent claim is also included for a container for distribution of a pill or granule type solid product.
