Abstract (en)
[origin: FR2857251A1] The apparatus has a water tank (2) to receive feet of a user and including a massage device (10) contacting the feet. The device has a driving end (12) to receive rotation movement of an output shaft (21) of a motor set located at exterior of the tank. The tank has a wall with a magnetically permeable material part. The transmission of movement between the shaft and device is realized across the tank by magnetic coupling (11).
