Abstract (en)

[origin: EP1650377A2] Side closure for facade scaffolding that comprises a frame (8) provided with open hooks on its lower part designed to guide and support it on a horizontal component of the facade scaffolding and other hooks on the upper part designed to centre and guide it on vertical components or struts of the facade scaffolding, with manual gripping handles (22,23) to assemble and disassemble it, and automatic locking means with regard to the scaffolding to prevent it from accidentally coming loose.
