Abstract (en)
[origin: EP1650525A1] The device has a firearm (16) with a magazine follower (33) and a stopper that bring a cartridge (1) into a magazine (20) in front of the entrance of a barrel (19). The barrel slides in a frame (17) until a position in which the barrel comes to stop under the action of a spring (27) against a front part of a case (2) of the cartridge. A propulsion unit of the cartridge projects the case and the barrel forwards.
