Abstract (en)
A light warning apparatus includes a strobe light source, a reflecting mirror that reflects light from the strobe light source, and lens that covers the strobe light source and the reflecting mirror, and a tinted coating layer is formed on the surface of the reflecting mirror. In addition, a colored light signaling device includes a tinted lens cover and a colored reflecting mirror coupled to the lens cover. A strobe light emitting device adapted to provide a sequence of flashing light is disposed in relation to the reflecting mirror so that the light is distributed in a predetermined pattern. The colored reflecting mirror provides a polar light distribution of the flashing light.
