Abstract (en)
[origin: WO2005016035A1] Disclosed is a cigarette paper dispenser (1) for storing and supplying small sheets of cigarette paper used for producing one's own cigarettes. Said cigarette paper dispenser (1) comprises a box (2) containing at least one stack of small sheets of cigarette paper. The top layer of said stack extends through a slot (6) that is allocated to the stack and is located on the top face (4) of the box (2). A flap lid (8) which covers the slot/s (6) located on the top face (4) of the box (2) in the closed state is hinged to the box (2). The small covering sheet (18) of the stack, i.e. the small sheet placed on top in the new state of the cigarette paper dispenser (1), is embodied in a manner that is different from the other small sheets of the stack. The flap lid (8) is fixed, preferably glued, to the box (2) in the new state of the cigarette paper dispenser (1) such that said flap lid (8) cannot be lifted up.
