Abstract (en)
[origin: FR2857344A1] The package has a window frame whose right (4) and left (3) columns are engaged on right (1) and left (2) doors, respectively. The columns constitute two opposing sides of a parcel. A bottom rail (5) of the frame covering a head guard (6) is placed on a part of the door (1), not covered by the door (2). A top rail (7) of the frame is placed below the column (4) against the door (1). An independent claim is also included for a process of manufacturing a package.
