Abstract (en)

[origin: EP1652779A2] A box folded from a blank (1), said box having a bottom (2) comprising a bottom part and side walls, a cover (3) comprising a cover part and side walls, as well as a connecting wall (4) that is pivotally connected to the bottom part and to the cover part, at least one side wall being provided with two panels (16,18;36,38) that can be positioned opposite each other via a fold line. The side wall can be connected to the associated bottom part or cover part by means of at least one recess (19,41) and a projection (26,48) that engages in said recess. The recess is closed on the side that faces towards an outer side of the box.
