Abstract (en)  
[origin: EP1653489A2] The device has a base part (10) attached at a household appliance, and a control unit (12) that is movably attached at the base part and includes a translucent area (16). An inner part (18) is translucent according to an assigned procedure and is arranged within the control unit. A light source (14) is arranged within the base unit or the inner part, where the inner part has a projection and an inscription that is a numeric scale. An independent claim is also included for a household appliance including an operating device.
