Abstract (en)

A contacting element for electrical contacting of components, especially for ignition voltage parts in internal combustion engines, including an external housing (2), containing an axial pressure spring (4), end (7) of which presses on a first stop (6) in a cup (12), while the spring end (8) under the action of the pressure spring presses on a second stop (16) inside the housing. An independent claim is included for a spark plug head.

Abstract (de)

Gegenstand der Erfindung ist ein Kontaktierungselement, insbesondere von Zündspannungsteilen in Verbrennungskraftmaschinen, mit einer Außenhülse, in deren Innerem eine axial wirkende Druckfeder vorgesehen ist.
