Abstract (en)
[origin: FR2858541A1] The contra-angle has a head (2) supporting an endodontics instrument (3) and a fixation unit (5) for fixing a handle (4) penetrating into the head. A pinion (6) assembled with body of the head permits the rotational movement of the instrument. The fixation unit assures removable assembling of the instrument on the handle. The pinion and the head are made up of plastic material.
