Abstract (en)

[origin: WO2005017782A1] Electronics assembly equipment 12 includes a controller 13 including computer readable medium having stored thereon, executable instructions defining at least one web service 10. The web includes information relating to the equipment. The equipment also includes a web service interface 16 associated with the controller 13 so that the web service 10 is accessible via Internet Protocol by a subscriber.
