Abstract (en)

[origin: EP1655428A1] The assembly has a post (1) ensuring the fixation of a sidewall at the ground. Hanger bars (2, 3) carry wall plates (6) and integrate them to the post. The bars (2, 3) have cylindrical legs (20, 30) respectively supporting the plates, support units (21, 31) supporting against the post, and finishing walls (22, 32). The walls (22, 32) connect edges of front sides (23, 33) of the legs to free ends of the support units. An independent claim is also included for a process of assembling a sidewall.
