Abstract (en)

[origin: EP1655434A2] The door system (1) with automatically displaceable flanks (5,6) has one or more sensors (8,9,10) in the interior and exterior areas of door system within the area of the aperture width of the displaceable flank. The entry area (11,12,13) extends over the entire aperture width whereby the entry area has crossover area (36). An independent claim is also included for the method of operation of sensors.
