Abstract (en)

[origin: EP1655551A2] The check valve insert (15, 35) for controlling the flow of heating medium comprises a first ring or hollow cylinder-shaped part (a) and a second round disc-shaped part (b) integrally formed from the periphery of the first part on the side next to the T-shaped casing (14, 34) containing the insert. The outer edge of the second part is provided with sealing lips. The external contours of the first and second parts correspond to the internal contours of the casing sections and the insert at least partially comprises a flexible material. The piece includes a connection casing (13, 33) with tubular and sleeve sections.
