Abstract (en)  
[origin: US2005039282A1] A vacuum cleaner brushroll according to an embodiment of the invention includes a brushroll body and at least one row of bristle tufts disposed on the brushroll body. The at least one row of bristle tufts includes a first tuft of a first effective length from the brushroll body and at least a second tuft of a second effective length that is different from the first effective length.
