Abstract (en)

[origin: WO2005021221A1] A modular tool box (10) comprises at least one compartment provided with a drawer (12), said drawer being assembled in a manner that enables it to slide on a supporting frame (11) provided with lateral walls serving as a track for the movement of this drawer (12). The invention is characterized in that at least one of these frames (11) is provided with rapid coupling and releasing devices (26, 27, 28, 29) for coupling to/releasing from identical adjacent frames (11) whereby forming a modular structure.
