Abstract (en)
A hanging frame supports a flat printed product for display, e.g. a banner, picture, poster. The assembly consists essentially of a plastic tube with an internal horizontal crosspiece dividing the void into top and bottom chambers. The tube has a first longitudinal slit on top and a second longitudinal slit along the bottom. The tube is suspended by a cord that is inserted at each end of the top slit and anchored by an end cap with a wedge in the upper chamber. The poster hangs on a beaded edge inserted through the bottom slit into the bottom chamber.
