Abstract (en)
[origin: WO2005006897A1] The invention relates to a flat protection structure (1) comprising an impermeable layer (10). Said first layer (10) comprises a tear-proof layer (12) and a layer (11, 13) which is made of an apposite impermeable material and applied to said tear-proof layer (12). The inventive flat structure also comprises a second layer (20) comprising three-dimensional bodies (21). The three-dimensional body (21) related to the second layer (20) consists at least of one entangled yarn. The three-dimensional bodies (21) which are adjacent to the second layer (20) are interconnected by means of spacing material (22).
