Abstract (en)
[origin: FR2859446A1] The crossbeam (1) has a tube (3) extending along a longitudinal direction (D), and struts placed on a left section of the crossbeam to form a reinforced section (13). The section (13) has a tubular hollow body (11) that extends along the longitudinal direction. The body has an assembling unit (34) for assembling a steering column (35) on the crossbeam. The struts are longitudinally arranged with respect to the unit. An independent claim is also included for a motor vehicle having an assembly including a dashboard crossbeam and a steering column mounted on the crossbeam.
