Abstract (en)
[origin: WO2005033485A1] Disclosed is an exhaust system (100) for an internal combustion engine, comprising a first exhaust leg that is provided with a penetrable first muffler (120), especially a rear muffler, and at least one second exhaust leg which runs parallel to the first one and encompasses a second penetrable muffler (122), particularly a rear muffler. The structure of the first muffler (120) differs from that of the second muffler (122).
