Abstract (en)
[origin: EP1669214A2] The desk top holder (2) for papers and office articles has a lateral wall (4), in the upper area of which is a contact surface (6), with a lower contact surface (8) in the lower area. The wall in its upper area has an all-round collar (10). The all-round collar acts as reinforcement for the wall against lateral bending forces. The lower contact surface can be flat or arched and formed by a part area of the lower side of the holder. Foot pieces (12) are provided on a displaced section (14) and project from the under side of the holder.
