Abstract (en)

[origin: WO2005032971A2] The invention relates to a metering valve which is used to dispense a fluid product. The inventive valve comprises a valve body (10), a metering chamber (20) and a delivery valve (30) which slides in the valve body (10) in order to dispense the product contained in the metering chamber (20), the wall (27) of said metering chamber (20) having an at least partially-curved axial section.
