Abstract (en)

[origin: WO2005024013A1] The present invention relates to crystals of MASP-2 polypeptides and uses thereof. The disclosed MASP-2 crystals are useful for determining the 3-dimensional structure of MASP-2 polypeptides, including catalytically active MASP-2 polypeptides as well as zymogen MASP-2 polypeptides. As disclosed by the invention said 3-dimensional structure may be used for identifying compounds capable of interacting with and/or inhibiting the activity of MASP-2.
