Abstract (en)

The method involves providing a textile article (10) before being decorated based on a logo (1). The article is constituted of a material (11) with an outer side (12) and an inner side (13). A cut (14) is made on the article along contour of the logo. A base (20) to cover the cut is made. The base is adhered on the inner side (13) using an adhesive film. Thermoplastic material of the film is crept inside holes of the cut. An independent claim is also included for a textile type article.
