Abstract (en)
[origin: EP1672162A2] The door has a door wing (2) of the first wing element (3) which is movable and swivelable. The door wing is fastened at the first framework (31) and consists a second wing element (4) which is preferably fastened to the first wing element. The second wing element rests in closed position of the door against the second and the third framework (32,33).
