Abstract (en)
[origin: EP1672326A1] The arrangement has a contact area that is laid out such that electrical signals are conducted into the arrangement. The area has an identical electrical potential at every point of the area. The area is configured such that two points (P1, P2) are defined by polar coordinates R and alpha 1, alpha 2, where R is the distance of an identical size of the points from an axis A and alpha 1, alpha 2 represent different angles.
