Abstract (en)

[origin: EP1672965A1] Electrical hair care appliance (1) with an ion generating device has fiber bundle with multiple electrically conducting stiff fibers of small diameter. The electrode unit (6) is arranged within the area of application side opening (10) of the mounting whereby the ion emitting end of fiber bundle (8) is arranged within the mounting (7). At least one electrically conducting element (14) of the same polarity as that of the fibers of fiber bundle features as conducting electrode.
