Abstract (en)  
[origin: WO2005035262A2] The invention relates to a security document, especially a bank note, comprising a security document substrate and at least two different marking characteristics which are used to examine the security document. According to the invention, a first marking characteristic is introduced into a volume of the substrate of the security document and a second marking characteristic is applied to the security document substrate in the form of a code.
