Abstract (en)
[origin: WO2005036059A1] Gas hobs comprising at least one gas burner (5), at least one pan support (7) which is used to place a food container over a gas burner (5), and at least one operational control and/or display element (19, 21) which is arranged on the gas hob are known per se. According to the invention, the pan support (7) comprises at least one recoiling section (13) which defines an operational area (15) wherein the operational control and/or the display element is arranged in order to ensure that the operational control and/or the display element (19, 21) do not take up too much room.
