Abstract (en)

The device has a universal fixation plate (5) with a horizontal rail (8), to which vertical fixation lugs are fixed. The lugs are spaced such that gap between their holes is identical to that between fixation holes of a washbasin, to mount the plate on the washbasin. The plate has studs (10) and sliding cleats (11, 12) movable in the rail and adapted to receive a trap cover, an under storage furniture and a towel holder, respectively.
