Abstract (en)

[origin: EP1674649A1] The profile (1) for the side surfaces of a window/door wall opening, for a window/door frame (11) against plaster (10), has a base profile (2) secured to the frame. A moving outer profile (3) with a plastering leg (4), which can be fixed, is passed through the base profile. The outer profile has a fastening leg (5) sliding between a holding bar (6) at the base profile and the frame, to be held in place by a shaped spring (7) at the base or outer profile with sealing bars (8,9) against the frame.
