Abstract (en)

The assembly to clamp and fix textile materials of a variable thickness, for embroidering, holds the fabric between a carrier (1) and a clamp holder (2) with at least one adjustable lock (3). Spacers (4) are against a support surface, and an opening (5) in the clamp and carrier allows the fabric to be embroidered. The carrier and clamp have structured surfaces of projections which mesh together. The lock has a hollow tab (7) to clamp an inserted structured tongue (8) at the clamp holder.
