Abstract (en)
[origin: WO2005044539A1] Disclosed is a drive unit, especially for a closing unit, an injection unit or an ejecting device of an injection moulding machine. A large axial force can be applied by means of a hydraulic power converter. A cylinder (16) of the power converter (4) can be fixed in relation to the frame of the injection moulding machine by means of a holding device (18) which is functionally separated by the guide (10, 12) of the cylinder (16) on the frame (14) of the injecting moulding machine.
