Abstract (en)
[origin: WO2005035907A1] Fall protection installation for a roof consisting of a tile-like body of high weight, such as at least 150 kg. Close to the corner points there are feet made of rubbery material, which preferably can be stuck to the roof covering laid on the roof to be made safe. The tile is provided with cut-outs close to the periphery thereof, which cut-outs are bridged by a steel bracket to which a lifeline or the like can be fastened.
